What is Head Start?

Head Start is a developmentally appropriate preschool program for children 3-5 years of age. It is a federally funded program operated by the Sabine Parish School Board. The program serves children from low-income families and children with disabilities.

Children in our program are provided screenings which include a physical, dental, vision, hearing, speech, and developmental. These screenings help identify potential areas of concern so that child can receive follow-up treatment to meet their needs. Children are also provided a nutritious breakfast and lunch at Head Start Center.
